INTRODUCTION

The student-staff ratio tables summarize the data on enrolment, teachers and selected non-teaching personnel employed in schools and in the central office of each school board in Ontario.

Sources of information are: September School Report for enrolment and full-time and part-time teachers employed in schools; September Board Report for teaching staff, supervisory officers, consultant staff, other professional staff employed at the board's central office, paraprofessional staff, and clerical and secretarial staff employed in schools and the board's central office.

The data are organized into four tables: 15.1, 15.2, 15.3, and 15.5. Each table presents data separately for public elementary and secondary schools. Data are also shown separately for Roman Catholic elementary schools with Grades JK to 8 and for Roman Catholic secondary schools with Grades 9 to 13.

Tabulations labelled "public elementary" include data on boards operating schools with Junior Kindergarten (JK) to Grade 8 and ungraded special education programs. There are 31 students enrolled in Grades 9 and 10 in public elementary schools in three school boards in the Northwestern Region. Tables labelled "public secondary" contain data on boards operating schools with Grades 9 to 13.

Tabulations with the title "Roman Catholic elementary" contain data on boards operating schools with Junior Kindergarten to Grade 8 and ungraded Special education programs. Tables with the title "Roman Catholic secondary" include data on secondary schools with Grades 9 to 13.

Students and teachers in schools for the trainable retarded, provincial schools, and educational programs or schools in care and treatment facilities are not included in the tabulations. The definitions and the sources of data for each category of personnel are included in the tables.

Table 15.1 summarized information on enrolment and full-time and part-time teachers employed in schools as of September 30, 1987. It also contains data on teachers attached to the central office of the board. For the part-time teachers, both the number and FTE are provided. Ratios per 1000 students are calculated for full-time teachers and FTE of all teachers employed in schools and the board's central office.

Table 15.2 provides, in addition to information on enrolment as of September 30, 1987, the full-time equivalent and ratio per 1000 students for teaching staff (all teachers employed in schools and central office). supervisory officers, consultant staff, other professional staff, and the total of these four categories of staff. The table also shows the student/teacher ratio (headcount of students divided by the FTE of teachers) for total teaching staff.

Table 15.3 reports enrolment figures on September 30, 1987, as well as the full-time equivalent of two categories of staff - paraprofessional, clerical and secretarial - employed in schools and the board's central office. The ratio per 1000 students is provided for each category and for the total of the two categories.

Table 15.5 contains five different pupil/teacher ratios. These ratios are categorized and defined as follows:

1. Pupil/teacher ratio, using headcount of pupils:

   a) Enrolment divided by the number of full-time teachers employed in schools;

   b) Enrolment divided by FTE of all teachers attached to schools.

2. Pupil/teacher ratio, using full-time equivalent of pupils:

   a) Enrolment divided by the number of full-time teachers attached to schools;

   b) Enrolment divided by FTE of all teachers attached to schools;

   c) Enrolment divided by FTE of all teaching staff employed in schools and the board's central office.

Caution is advised when comparisons are made of the ratios per 1000 students, or pupil/teacher ratios of different boards of education. In comparing these indices, other board characteristics (e.g., the size or location of the board) may have to be considered. The data for Roman Catholic boards are not comparable with those for previous years due to the extension of public funding to Grade 11 in 1985, Grade 12 in 1986 and Grade 13 in 1987.

INTRODUCTION

Les tableaux sur le taux d'encadrement des élèves résument les données que nous possédons sur l'effectif, sur les enseignants et sur certaines catégories du personnel non enseignant à l'emploi des écoles et du bureau central de tous les conseils scolaires de l'Ontario.

Les données utilisées proviennent : du Rapport de septembre des écoles; en ce qui a trait à l'effectif, et aux enseignants employés à temps plein et à temps partiel dans les écoles; et du Rapport de septembre des conseils scolaires, en ce qui a trait aux enseignants, aux agents de supervision, aux conseillers pédagogiques et aux autres professionnels à l'emploi du bureau central des conseils scolaires et relativement au personnel paraprofessionnel et au personnel de bureau à l'emploi des écoles et du bureau central des conseils scolaires.

Les données sont réparties en quatre tableaux: 15.1, 15.2, 15.3 et 15.5. Chacun d'entre eux font une distinction entre les écoles élémentaires et secondaires publiques. De même, les données sur les écoles élémentaires catholiques qui dispensent l'enseignement de la maternelle à la 8" année et les données sur les écoles secondaires catholiques qui ont des classes de la 9" à la 13" année sont présentées séparément.

Les sections de tableaux sur les «écoles élémentaires publiques» contiennent des données sur les conseils scolaires qui administrent des écoles dispensent l'enseignement de la maternelle à la 8" année ainsi que des programmes indifférenciés pour l'enfance en difficulté. On compte 31 élèves inscrits en 9" et 10" année dans des écoles élémentaires publiques relevant de trois conseils scolaires du Nord-Ouest de l'Ontario. Les sections de tableaux sur les «écoles secondaires publiques» contiennent des données sur les conseils qui administrent des écoles dispensant l'enseignement de la 9" à la 13" année.

Les sections de tableaux sur les «écoles élèmentaires catholiques» contiennent des données sur les conseils scolaires qui administrent des écoles dispensant l'enseignement de la maternelle à la 8" année ainsi que des programmes indifférenciés pour l'enfance en difficulté. Les sections de tableaux sur les «écoles secondaires catholiques» renferment des données sur les écoles secondaires dispensant l'enseignement de la 9" à la 13" année.

Les tableaux ne tiennent pas compte des élèves et des enseignants des écoles pour déficients moyens, des écoles provinciales ni des programmes offerts dans les établissements de soins et de traitement ou des écoles qui s'y trouvent. Les définitions de toutes les catégories de personnel, ainsi que la source des données se rapportant à chacune d'elles y sont incluses.

Le tableau 15.1 résume les données, au 30 septembre 1987, sur l'effectif et sur les enseignants à temps plein et à temps partiel employés dans les écoles. Il contient de plus des données sur les enseignants affectés au bureau central des conseils scolaires. Il fournit en outre le nombre et l'ETP des enseignants à temps partiel. Les ratios d'enseignants par 1 000 élèves sont calculés en fonction du nombre d'enseignants à temps plein et de l'ETP de tous les enseignants employés dans les écoles et au bureau central des conseils scolaires.

Le tableau 15.2 fournit, en plus de données sur l'effectif au 30 septembre 1987, l'équivalent à temps plein et le ratio pour 1 000 élèves des enseignants (tous les enseignants employés par les écoles et le bureau central des conseils scolaires), agents de supervision, conseillers pédagogiques et autres professionnels, ainsi que le total de ces quatre catégories de personnel. Il donne de plus le taux d'encadrement des élèves (nombre d'élèves divisé par l'ETP des enseignants) en fonction du total des enseignants.

Le tableau 15.3 fournit l'effectif au 30 septembre 1987, ainsi que l'équivalent à plein temps de deux catégories de personnel (le personnel paraprofessionnel et le personnel de bureau) à l'emploi des écoles et du bureau central des conseils scolaires. Il donne de plus le ratio par 1 000 élèves en fonction de chacune de ces catégories et en fonction de leur total.

Le tableau 15.5 fournit cinq taux d'encadrement différents. Il s'agit :

1) De taux d'encadrement des élèves qui sont calculés en fonction de l'effectif réel:

   a) Effectif divisé par le nombre d'enseignants à plein temps employés dans les écoles;

   b) Effectif divisé par l'ETP de tous les enseignants affectés aux écoles.

2. De taux d'encadrement des élèves qui sont calculùs en fonction de l'équivalent à temps plein des élèves

   a) Effectif divisé par le nombre d'enseignants à plein temps affectés aux écoles;

   b) Effectif divisé par l'ETP de tous les enseignants affectés aux écoles;

   c) Effectif divisé par l'ETP de tout le personnel enseignant affecté aux écoles et au bureau central des conseils scolaires.

Il convient de faire preuve de discernement au moment de comparer les ratios par 1 000 élèves ou les taux d'encadrement des élèves de différents conseils scolaires. Dans ces comparaisons, il y a peut-être lieu de tenir compte d'autres catactéristiques des conseils scolaires (par exemple, leur grandeur et location). Les données sur les conseils d'écoles catholiques ne peuvent être comparées à celles des années précédentes en raison de l'extension du financement, par les fonds publics, des écoles dispensant l'enseignement jusqu'en 11" année, en 1985, jusqu'en 12" année en 1986, et jusqu'en 13" année en 1987.
